## 4 people have recommended Amin

"amin is Inventive and he is a detail -oriented manager who has detailed knowledge of the subject and he is Excellent designer at a reasonable cost"

— **Zahra Alamdar**, was Amin's client

"Amin is a clever and hardworking and knowledgeable person who carries out his job as expected. He works on his duties perfectly as a team member or individually. He is so polite that makes the communication easy and smooth."

— **Marzieh Ahmadzadeh**, *Assistant Professor, Shiraz University of Technology*, taught Amin at Shiraz University Of Technology

"Amin was best in Flash Design considering Action Scripting. His insight in Graphic Design was shocking for any usual eye. His talent in blending his sciences including managment, graphic, coding and etc., had made him number one at the time! I strongly recommend him for any cyber project."

— **Bijan Moudi**, *Student, Shiraz University of Technology*, studied with Amin at Shiraz University

"Mr. Diary is one of those students that I liked his innovative way of study and practice of the Information technology. Mr. Diary's operational skills and ability to grasp new ideas and implement them are far above those of his classmates. He did his final project under my supervision and actually it was an acceptable prototype for a tele-consultation system in medical domain. It is my opinion that Mr. Diary would be an excellent web developer with good approach to GUI design. He is kind of person you would choose to collaborate with in IT teams."

— **Farzad Jahedi**, *Guest Lecturer, Shiraz University of Technology*, taught Amin at Shiraz University
